

**Food Tech Congress**  
**Conference Agenda**  
 03-04 November, 2021

**Day 1**

Wed | 03/11/2021

**Main Stage**

10:00 AM - 10:10 AM		Opening by the Host
10:10 AM - 10:20 AM		Opening by the Government
10:20 AM - 10:50 AM	Fireside chat	TBA
10:50 AM - 11:20 AM	Keynote	Moving towards a more sustainable food chain: how technology and policy are reshaping the industry?
11:20 AM - 12:05 PM	Panel	Shifting to the post-pandemic world: the supply chain trends that will thrive
12:05 PM - 12:15 PM	Keynote	TBA
12:15 PM - 12:35 PM	Keynote	"Transparency triumphs": increasing transparency to meet evolving ethical, environmental and clean label consumer demands
12:35 PM - 01:20 PM	Panel	Finding the right balance between sustainability, ethics and safety: how can the traditional F&B industry keep up?
01:20 PM - 01:30 PM	Keynote	TBA
01:30 PM - 02:00 PM		Networking break
02:00 PM - 02:20 PM	Keynote	Food as medicine: the potential of personalised nutrition to transform the traditional healthcare system
02:20 PM - 03:05 PM	Panel	Nutritious alternatives vs tradition food: can we reinvent what we eat?
03:05 PM - 03:15 PM	Keynote	TBA
03:15 PM - 03:45 PM		Networking break
03:45 PM - 04:05 PM	Keynote	Plant-based packaging: will it live up to the hype?
04:05 PM - 04:50 PM	Panel	Plant-based innovation: what should the F&B industry expect in the next decade?
04:50 PM - 05:00 PM	Keynote	TBA
05:00 PM - 05:20 PM	Fireside chat	TBA
05:20 PM - 05:30 PM	Remarks	Day closing

		<b>Functional food</b>	<b>Alternative proteins</b>	<b>Food waste</b>
02:00 PM - 02:20 PM	Keynote	'Designer' foods: a new trend or the future of the Food industry?	Alternative protein market: drawbacks and new opportunities	Food waste evolution: the newest developments leading towards a more sustainable future
02:20 PM - 03:00 PM	Panel	How the F&B industry is responding to the increasing demand for nutritional and fortifying food additives?	Improving the taste, texture, and appearance of alternative proteins: what new technologies are emerging?	How can startups and F&B corporations work together to tackle challenges in upcycling waste streams
03:00 PM - 03:15 PM	Keynote	Going beyond feeding: the rise of Nanoencapsulation technologies	What is the real potential of the insect protein?	Slowing down the ripening process - a way forward in reducing food waste?
03:15 PM - 03:45 PM		Networking break		
03:45 PM - 04:00 PM	Keynote	How can modified functional food fit into a balanced diet and what does that mean for the industry?	Mycoprotein - the fungus revolution taking off as we speak	Supermarkets moving towards zero food waste: how far are we?
04:00 PM - 04:45 PM	Investor Panel	Investor panel: rapid functional food market growth - when is the best time to invest?	The future of investments in plant-based meat and dairy alternatives: where do we place bets for the next year?	Betting big on the future of food waste technologies: investors' perspective
04:45 PM - 05:30 PM	Roundtable	Lessons from innovators: what does it take to develop a truly functional product?	Changing consumer habits: can fake meat replace the real deal?	Recycling and reusing: rethinking food waste with a sustainable and cost-efficient packaging

**Conference Agenda**  
**03-04 November, 2021**

**Day 2**

Thu | 04/11/2021

		Main Stage	Agri Tech	Animal Tech
10:00 AM - 10:10 AM		Opening by the Host		
10:10 AM - 10:40 AM	Keynote	TBA		
10:40 AM - 11:00 AM	Keynote	Corporate innovation: what can traditional F&B corporates learn from a startup's agility in scope?	Transforming agriculture to enter the modern age: new advancements in technologies	Improving food quality and safety: the rise of innovations that contribute to animal welfare
11:00 AM - 11:45 AM	Panel	Creating next-generation products: inspiring R&D teams to stimulate innovation	How are emerging technologies addressing the critical issues in agriculture?	How far are we in revolutionising the Livestock industry and what challenges are we facing?
11:45 AM - 12:15 PM		Networking break		
12:15 PM - 12:30 PM	Keynote	Diversity problem in F&B industry. Creating a structured plan to address it	Corporate perspective: how do we co-create AgriTech solutions with farmers?	Traditional vs the new: what are the biggest technology adoption barriers and how can the industry overcome it?
12:30 PM - 01:00 PM	Panel	Tech companies leadership in diversity and inclusion. What traditional F&B sectors can learn?	Startup perspective: tailoring innovations for farmers to improve efficiency	A carbon neutral animal agriculture: how can we achieve it?
01:00 PM - 01:30 PM	Panel	Implementing SDGs: addressing food security, nutrition and sustainable agriculture	How are consumer trends in plant-based are driving innovation in AgriTech?	Igniting a blue revolution: what innovations are needed to improve the aquaculture supply chain?
01:30 PM - 02:00 PM		Networking break		
02:00 PM - 02:15 PM	Keynote	Post-Covid-19: what are the best ways of innovating and reaching consumers?	02:00 PM - 02:20 PM Can we achieve yield, quality and soil health with conventional farming?	02:00 PM - 02:20 PM The 'connected cow' concept - a way forward to boost production?
02:15 PM - 02:45 PM	Panel	What opportunities did Covid-19 create for the F&B industry? Who nailed it and who fell behind?	02:20 PM - 03:00 PM What will it take to reduce the global synthetic pesticide load by 80% by 2030?	02:20 PM - 03:00 PM Optimising livestock nutrition: how can we reduce the current dependency on antibiotics?
02:45 PM - 03:15 PM	Panel	Covid-19 reduced daily global CO2 emissions by 17%: what can F&B industry do to help keep it up?	03:00 PM - 03:15 PM Keynote: Carbon farming: the next tool to address climate change?	03:00 PM - 03:15 PM Keynote: AI transforming the protein supply chain: reducing mortality, saving energy and improving welfare
03:15 PM - 03:45 PM		Networking break		
03:45 PM - 04:00 PM	Keynote	Covid-19 is just a drop in the ocean compared to climate change. How can we act now?	Urban farming: benefits and drawbacks of Indoor vertical farming	Better breeding for a better future: improving animal welfare to reduce global warming
04:00 PM - 04:30 PM	Panel	Can AI help F&B industry to supercharge corporate sustainability?	04:00 PM - 04:45 PM Lessons learned from investing in Agritech and the vast opportunities ahead	04:00 PM - 04:45 PM From being underfunded to gaining traction in investments - why is Animal Tech on the rise?
04:30 PM - 05:00 PM	Investor Panel	What are the key drivers enabling Europe's leadership in Foodtech investments?	04:45 PM - 05:30 PM Roundtable: Integrating new solutions into traditional farming: the future lies in sustainability	04:45 PM - 05:30 PM Roundtable: How do we power the digitalisation of livestock farming through strategic partnerships?
05:00 PM - 05:30 PM	Keynote	TBA		
05:30 PM - 05:45 PM	Remarks	Conference closing		

		Personalisation	Digitalisation & AI
02:00 PM - 02:20 PM	Keynote	From mass production to mass personalisation: how can the F&B industry keep up?	Automation & AI: a push towards greater efficiency and scale of the food industry
02:20 PM - 03:00 PM	Panel	Digital transformation: why is the F&B industry falling behind and how can we act?	Food industry 4.0: revolution or evolution?
03:00 PM - 03:15 PM	Keynote	Big data: the key driver in achieving mass personalisation?	The role of AI in Company's decision-making on what new products to develop. How far are we?
03:15 PM - 03:45 PM		Networking break	
03:45 PM - 04:00 PM	Keynote	Personalised nutrition: techs role in improving health and preventing illnesses	Automation & AI: the key to avoiding food safety risks?
04:00 PM - 04:45 PM	Panel	Food industry digitalisation: where to focus to achieve the biggest return on investment?	What are the 'next-generation' AI technologies that are set to revolutionise Food Tech?
04:45 PM - 05:30 PM	Roundtable	Scaling personalised nutrition: the latest innovations and opportunities for businesses	Decision tree analysis: things to consider when implementing automation & AI in a food business
